Dear Trevor:

Just a note to thank you for all your hard work on RED WATER. You did an outstanding job.

All of your work was excellent, but I particularly appreciated your underwater skills. Your ability to work underwater – to frame, execute, communicate, improvise, adjust – all very, very impressive.

Your energy, stamina, eye for composition – all noted, all appreciated.

I enjoyed communicating with you over the U/W COMMS, because no matter what ludicrous babble came out of my mouth – framing suggestions, changes for the actors, etc. – your responses always were: “Copy That,” and/or “Standing By.” I still smile, just recalling that.

I don't know how we would have made this picture without you. Thank God we didn't have to try.

Well done, Trevor. Thank you.

- Charlie
